

The APEX will shatter your definition of what a “workout” is – just one session will inspire you to reach new heights of fitness! No other equipment even compares to the APEX performance or the way it will make you feel, with a workout that is as challenging as it is fun! The one-of-a-kind engineering combines Ropeflex trusted progressive resistance technology of rope-pulling resistance training with the ultra-effective cardiovascular benefits of an integrated incline treadmill. It’s versatile engineering is well-suited for beginner, intermediate, and advanced users, alike. The APEX provides a unique combination of ergonomic, natural, and functional movements as well as the benefits of low-impact weight-bearing incline training and continuous resistance. APEX modular design accommodates independent use of the treadmill or rope-exercise. Thus, APEX is just as effective for separate cardio or resistance training, as well as the ultimate combination of both. Used properly, APEX is as safe as walking – but it is up to 5 times more effective than conventional resistance training and cardio combined! The flexibility of rope training allows for endless exercise variety and full range of motion without the risk of high-impact exercise. APEX striking design is a call to action; a bold new alternative to the monotony of traditional exercise – Do you dare take the challenge
