

GET A GRIP, TRAIN HARD

ROPEFLEX®

Ropeflex training equipment is based on maintenance-free magnetic technology. Our continuously adjusting **Progressive Resistance** automatically increases or decreases resistance depending on rope pulling speed and intensity. Our patented technology allows you to customize the workout to match your fitness goals. Initial tension starts as low as 10 lbs and go up to 200 lbs. A perfect training machine from beginners to performance athletes. Our high quality ropes are pliable, allowing for a comfortable grip, limiting friction and slipping during exercise.
